## Introduction

### **Do you know that:**

- You have only 5GB of data storage on your MS CRM Online account for ALL YOUR ORGANIZATION?
- Once you reach your data limit your MS CRM Online account will be LOCKED in read-only mode?
- Microsoft CRM Online doesn't have standard functionality for actual data storage analysis.

### **UDS Storage Analyzer Tool designed to:**

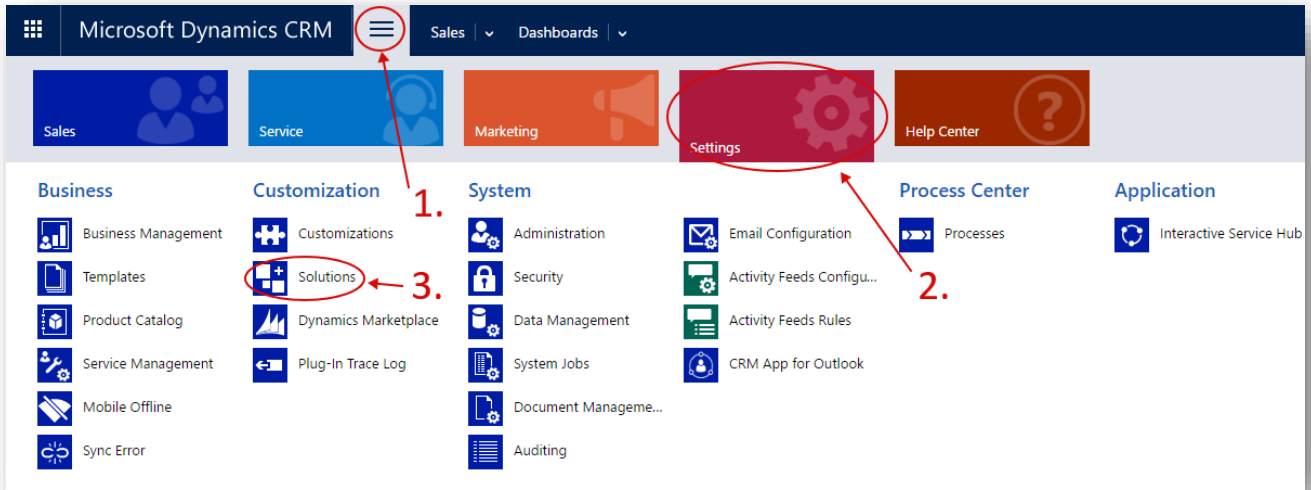

- Display your CRM Online storage limits;
- Identify the sourcing of those files;
- Identify entries which overburden the system;
- Take precautions to avoid CRM System blocking.

### **Learn how to clean your storage space in Dynamics CRM Online:**

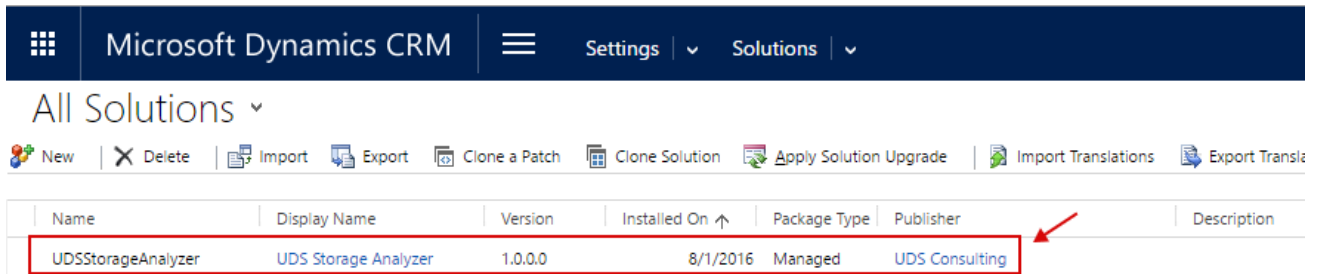

- Delete bulk e-mail and workflow jobs using a bulk deletion job;
- Evaluate and delete suspended workflows;
- Remove e-mail attachments using Advanced Find;
- Remove e-mail messages with attachments using a bulk deletion job;
- Remove notes with attachments using Advanced Find;
- Remove notes with attachments using a bulk deletion job;
- Remove bulk duplicate detection jobs and associated copies of duplicate records.

## UDS Storage Analyzer Usage

After installing **UDS Storage Analyzer** solution is fully ready to work. To run UDS Storage Analyzer Navigate to **Settings(2.)**> **Solutions(3.)**.

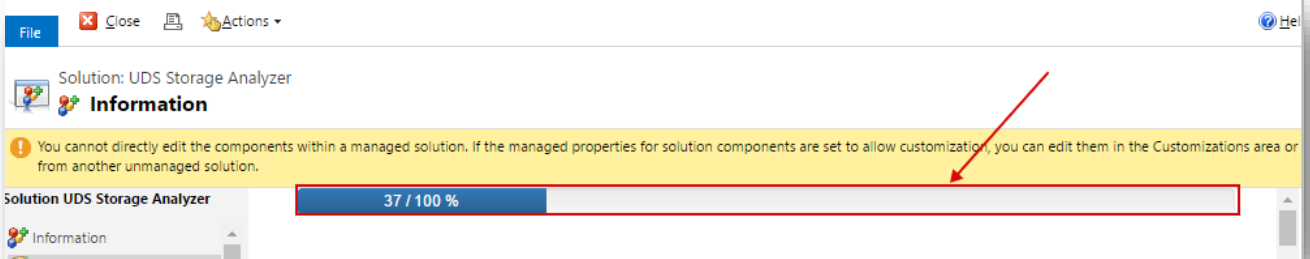

On **Solutions** page double click at **UDS Storage Analyzer**.

**UDS Storage Analyzer** will run automatically

After running UDS Storage Analyzer counting of your entries will start  
**Process Bar(1.)**

Finally you will have a table with all your entities, counts of entries and their sizes.

Table consists of:

- System name of your Entity(1.);
- Name of your Entity(2.);
- Count of entries that belongs to each Entity(3.);
- Total size of entries that belongs to each Entity(4.).

The screenshot shows the 'Solution: UDS Storage Analyzer' window with a table of entities. The table has four columns: 'System Name', 'Name', 'Count', and 'Size(KB)'. Red arrows labeled 1., 2., 3., and 4. point to these columns respectively. The table contains the following data:

System Name	Name	Count	Size(KB)
roleprivileges		11011	1304
savedquery	View	1695	424
report	Report	58	32
savedqueryvisualization	System Chart	96	24
reportcategory	Report Related Category	66	24
publisher	Publisher	10	24
customeraddress	Address	66	24
contact	Contact	22	24
workflow	Process	35	16
solution	Solution	21	16
role	Security Role	39	16

**IMPORTANT:** UDS Storage Analyzer calculates roughly equal values of size (+/- 10%)
